

## **WHY I FEEL TOLLAND IS A GREAT PLACE TO LIVE**

Tolland is a remarkable small town in so many ways! Its quaint New England character and rural charm are what make it my favorite place, but it also has so much more to offer. With miles of woodlands and well-marked hiking trails, one can easily discover the natural beauty the town has to offer. But...let's not forget the incredible school system the town also boasts. With its award-winning public schools and commendable recreation programs, Tolland is easily the choice of so many residents who decide to live in Northeastern Connecticut. The impressive town green is home to the famous Tolland Inn, the amazing farmer's market, and also the sight of the annual Memorial Day Parade, an event that makes any resident proud to call Tolland home.

I feel that Tolland has everything a resident could ever want in a town. From well maintained roads to acres of unspoiled woods, there is something waiting to be explored around every turn. Its crisp four-season climate always reminds us what we love best about calling New England our home. There really isn't anything missing from Tolland, except of course big city lights, but for those of us lucky enough to call this beautiful town our home, we wouldn't have it any other way. We have chosen Tolland because we love it here, and if we all take pride in our town, it will be around for years to come as a polished gem!
