

Why I Feel Tolland Is A Great Place To Live

By Chelsea Weaver

5th grade

I think Tolland is a great place to live, especially with all the excitement going on, such as farmers markets, nature, wild animals, and more! There's so much to do and see when you live in Tolland! In Tolland, you can visit historical sites, like the Hicks Sterns Museum, which takes historical living to an extreme, or the Candy and Antique Shop, which used to be a house, or built on the land of it, used in the 1800's. Tolland also has the beauty of nature as the heart of it. In fall, the leaves change colors and there's so many trees, that it looks like rainbow upon rainbow! Then, in the winter when it snows, the freshly fallen snow is glistening and sparkling like a blanket. Also, in summer and spring, the flowers pop up like dozens of grasshoppers and it's so relaxing under the hot sun. If you live in Tolland, another place to visit would be our great town library. When you walk in warmth and pleasure greet you. It has selections of all sorts for all people, and it also has small activities for the younger children to enjoy! What a place! If you think I'm done, think again! What you need to know is all about the community events Tolland has. For one, every year, there's a town parade with many people participating in the celebration. Also, we have farmers markets to sell all sorts of nicks and knacks and goodies. Then there are the art shows, to show what people made themselves and enjoy. Ah, and the wonderful wild animals! All year long, there are spectacular opportunities to see all the amazing creatures, like maybe a fawn and her mother, and even rarer, a buck. Or you can also see some turkeys,

which are scarce, but beautiful, and the rabbits, small and sweet things. Want to relax in the center of town? The green is where you should go because there, you can enjoy all the wonderful events that go by, like the parades, or one time, a lady was walking a llama on the green! You'll never know what you'll see. While you relax, the feeling of a small town will suck you into its relaxing drift of peace and beauty. It's so cozy; it'll make you never want to leave. One thing you got to do is go to the exciting places in Tolland. You can go to Crandall Park, where the sun shines perfectly on you while you enjoy the slide and swings and all that. And besides that, there are fantastic opportunities you can tryout, like going to Crandall beach to get a tan and swim in the lake. Or maybe you can chaperone a trip or host the parade or at the library. Whether the blissful quietness grabs your attention, or the nearby friends and family, this is why I think Tolland is great!
